Luggage Checks

Passengers may "check" their luggage between any of the places at which inter-system rail tickets are on issue.

As the space available for luggage in sleeping compartments is necessarily limited, passengers are recommended to take with them in the compartment one suitcase not exceeding 28 inches in length which can be placed in the rack provided for this purpose and one smaller case (say 14-16 inches).

Other luggage should be "checked through" in the brakevan.

CENTRAL AUSTRALIA

Central Australia with its perfect winter climate and its variety of scenic attractions is now one of Australia's most popular winter tourist resorts

Alice Springs, the terminus of the Central Australia Railway, is situated in the Macdonnell Ranges, 2,000 feet above sea level. On the same degree of latitude as Rockhampton (Queensland), Alice Springs enjoys perfect weather during the months of May, June, July and August, when the Southern States are experiencing the rigours of winter.

Regular tours connecting with the Central Australia Railway train service at Alice Springs are now arranged to most of the beauty spots throughout this area. Further enquiries concerning these tours should be directed to Tourist Bureaux. The following is a brief description of some of the delightful scenic attractions of Central Australia.

AYERS ROCK

Ayers Rock, measuring five and one half miles around its base, and rising a sheer 1,150 feet from the surrounding desert, is the greatest monolith in the world. It is 240 miles south-west of Alice Springs. Numerous caves and rock paintings are to be found at Ayers Rock.

PALM VALLEY

This delightful oasis, situated 100 miles west of Alice Springs, is one of the most interesting and picturesque spots in Australia. Here the vegetation and flora of long ago are still to be found. Cycads and the famous Livistonia marioe palms abound.

STANDLEY CHASM

Situated 34 miles from Alice Springs, Standley Chasm is one of the most remarkable gaps in the romantic heart of Australia. The walls which rise to a height of 100 feet, and are not more than 15 feet apart, are a riot of colour. Bright yellows and burnt sienna, streaked and splashed with brown and black, form the predominating scene.

A variety of other unrivalled beauty spots are also within easy reach of Alice Springs—Simpson's Gap, Emily Gap with its carvings, Gall Spring and Glen Helen Gorge, are but a few of the delightful attractions that await the traveller in the magnetic heart of the continent.
